

Location:

Tripoli, Libya

Client:

Libyan Port and Maritime Transport Authority

Year:

1997 – ongoing

Description:

Tripoli harbour, one of the major ports of Libya, is protected by a main breakwater of 4.7 km length. The

The re-design, prepared by consultant in the period 1981 – 1984 was not implemented for various reasons

The project started with a detailed survey of the present breakwater and seabed situation, together with
